Une autre conspiration is the second phase of an exchange programme between the Hochschule Für Grafik und Buchkunst of Leipzig (HGB) and the École nationale supérieure des beaux-arts of Lyon (Ensba Lyon). This programme was set up by the two art schools in the context of the historical relationship of these twin towns.

This year, 12 young French and German artists are participating in this project, one that is concerned with the private, artistic and political forms of conspiracy.

A double exhibition, in Lyon, by the HGB Leipzig and the Ensba Lyon.

In Resonance with the 2015 Biennial of Lyon.
